***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claim 1 is the limitation of a pivotable hinge coupled to both of said first and second panels for rotating the first panel with respect to the second panel between an open and a closed position and for also rotating the first panel perpendicularly with respect to the second panel, and an ink pad coupled to one of said panels, in combination with the other claimed structure.

The primary reason for the allowance of claim 11 is the limitation of an ink pad coupled to the first cover, a pivotable hinge coupled to both of said first and second covers, the first cover having a first axis about which it can rotate via the pivotable hinge between open and closed positions and a second axis about which it can rotate via the pivotable hinge perpendicularly with respect to the second cover where the first and second axes lie at an angle from each other, in combination with the other claimed structure.

The primary reason for the allowance of claim 19 is the limitation of a first panel rotatable around a first axis and a second axis, the first and second axes being angled from each other, a second panel coupled to the first panel, an ink pad coupled to one of said panels, means for rotating said first panel around the first axis between an open and a closed position and for rotating said first panel perpendicularly with respect to the second panel, in combination with the other claimed structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
